

**The list of promising investment projects proposed for the joint implementation with direct investments from foreign companies**

<b>№</b>	<b>Initiators and Projects</b>	<b>Capacity / Output</b>	<b>Estimated Cost of the Project*</b>
	<b>TOTAL:</b>		<b>7 882,3</b>
<b><i>Petrochemical industry</i></b>			<b><i>1 312,6</i></b>
<b>1.</b>	Establish production of polycarbonate, polystyrol, ABC-plastics, etc.	70,0 thousand tonnes of polymers	700,0
<b>2.</b>	Establish production of 1,4 butanediol from natural gas for establishing production of polymers (rubber, spandex, etc.).	Is being determined	200,0
<b>3.</b>	Implementation of projects aiming at oil pumping from oil-field development sites with hard-to-pump reserves that have been under development for a long time (application of new technologies)	Increase of oil extraction from long-developed deposits of hard-to-recover reserves	151,5
<b>4.</b>	Exploration work on Akdjar and Chimbay investment blocks of the Republic of Uzbekistan	Site	56,1
<b>5.</b>	Exploration work on investment oil-and-gas-bearing blocks (Khorezm and Meshekli-Tuzkoy investment blocks)	Site	200,0
<b>6.</b>	Establish production of foamed polyethilen	10,000 tonnes	5,0
<b><i>Chemical industry</i></b>			<b><i>2 282,6</i></b>
<b>7.</b>	Establishment of gas & chemical complex for deep/advance refining of natural gas using technologies to extract olefins from methanol (MTO)	500,000t of methanol; 192,000 t of ethylene/propylene; 150,000 t of PVC; 90,000 t of caustic soda, etc.	1 270,0
<b>8.</b>	Building ammonia and carbamide production at the OJSC "Navoiazot"	660,000 t of ammonia, 577,500 t of carbamide	961,7
<b>9.</b>	Establishing production of synthetic detergents	20 thousand tonnes	10,4
<b>10.</b>	Establishing production of tooth paste	Is being determined	Is being determined
<b>11.</b>	Establishing production of tooth brushes	Is being determined	Is being determined
<b>12.</b>	Establishing production of cosmetic products for shaving and after shave skin care (creams, gels	Is being determined	Is being determined

№	Initiators and Projects	Capacity / Output	Estimated Cost of the Project*
	and lotions)		
13.	Establishing production of shaving products (shaving razors and cassettes/blades for them)	Is being determined	Is being determined
14.	Establishing production of cosmetic products (shaving cream, shaving gel, shaving foam, etc.)	Is being determined	Is being determined
15.	Establishing production of plastic fixtures for textile and leather industry	500 million units in range	Is being determined
16.	Establishing production of consumer water filters	Is being determined	25,0
17.	Establishing production of chemical agents for textile industry (dye, bleach, etc.)	10 thousand tonnes of bleach	Is being determined
18.	Establishing production of children's toys made of plastic materials	Is being determined	Is being determined
19.	Establishing production of raw materials for making soles for shoes from EVA	10 thousand tonnes of primary products	1,0
20.	Establishing production of products made of fiberglass (yarn, fabric, ribbons, etc)	Is being determined	5,0
21.	Establishing production of construction coating and auto paint	Import in 2013 – 1,8 million USD	Is being determined
22.	Establishing production of antifreeze for vehicles (cars, trucks, buses, etc.)	Import in 2013 – 6,3 million USD	Is being determined
23.	Establishing production of windshield solutions for vehicles	450,000 litres	2,0
24.	Establishing production of auto break fluids (cars, trucks, buses, etc.)	500 tonnes	2,5
25.	Establishing production of fluids for auto hydraulic systems	500 tonnes	2,5
26.	Establishing production of glues and other adhesives for construction industries, shoe making industries, etc.	1 thousand tonnes	2,5
<b><i>Metal Mining Industry</i></b>			<b><i>3215,0</i></b>
27.	Exploration of the titan-magnetic field Tebinbulak to establish production of titan, vanadium and other co-products	Site	3100,0

<b>№</b>	<b>Initiators and Projects</b>	<b>Capacity / Output</b>	<b>Estimated Cost of the Project*</b>
<b>28.</b>	Establishing production of ferroalloy from the Dautash manganese field	12,000 tonnes	65,0
<b>29.</b>	Exploration of the Ingichke wolfram field	Site	50,0
<b><i>Automotive Industry</i></b>			<b><i>310,0</i></b>
<b>30.</b>	Establishing production of sections and components of auto power parts (transmission)	250,000 pieces	310,0
<b>31.</b>	Establishing production of shock-absorbers for cars	1,195,000 pieces	Is being determined
<b>32.</b>	Establishing production of auto brake pads	3,060,000 pieces	Is being determined
<b>33.</b>	Establishing production of auto seatbelts	215,000 sets	Is being determined
<b>34.</b>	Establishing production of spark plugs	1,530,000 pieces	Is being determined
<b>35.</b>	Establishing production of oil filters	Import in 2013 – 5,7 million USD	Is being determined
<b><i>Electrical Industry</i></b>			<b><i>143,0</i></b>
<b>36.</b>	Establishing production of refrigerators	500,000 refrigerators	13,0
<b>37.</b>	Establishing production of consumer air coolers	500,000 ACs	Is being determined
<b>38.</b>	Establishing production of LCD and LED TV-sets and monitors	500,000 LCD and LED tv-sets and monitors	30,0
<b>39.</b>	Establishing production of laundry machines and dish washers	200,000 washing machines, 50,000 dish washing machines	11,0
<b>40.</b>	Establishing production of microwave ovens	Is being determined	Is being determined
<b>41.</b>	Establishing production of personal computers	Up to 200,000 pieces	7,5
<b>42.</b>	Establishing production of uninterruptible power supplies (UPS)	Is being determined	2.0
<b>43.</b>	Establishing production of small appliances (hair dryers, irons, electrical meat mincers, juice makers, electrical kettles, etc.)	100,000 vacuum cleaners, 100,000 hair dryers, 100,000 electric meat mincers	Is being determined
<b>44.</b>	Establishing production of energy efficient light-emitting diode lamps	2,5 million lamps per year	5,0

№	Initiators and Projects	Capacity / Output	Estimated Cost of the Project*
45.	Establishing production of lighting devices (lamps, table lamps, floor lamps, etc)	100,000 pieces of various electric lighting devices	Is being determined
46.	Establishing production of electric security systems and video surveillance systems	100,0 thousand pieces	2,5
47.	Establishing production of low power electric motors, including those for auto industry	Is being determined	8,0
48.	Establishing production of acoustic systems	500,000 pieces of car speakers, 50,000 pieces of speakers for home appliances	4,5
49.	Establishing production of compressors for consumer appliances	Is being determined	30,0
50.	Establishing production of various electric pumps (water)	Is being determined	Is being determined
51.	Establishing production of checkout / point of sale devices (POS)	Up to 50 thousand pieces	3,0
52.	Establishing production of photo-electric panels at the Free Industrial Economic Zone "Navoi"	50 mW	10,0
53.	Establishing production of electronic meters for auto-control systems and electricity consumption meters	Up to 500,000 pieces	3,5
54.	Establishing production of electronic gas consumption meters	Is being determined	8,0
55.	Establishing production of systems for lowering and measuring pressure	50,000 units of reducers, pressure gauges, etc.	7,0
56.	Establishing production of different types of ventilators	Is being determined	Is being determined
57.	Establishing production of medical equipment for functional diagnostics (ECG, ultrasound, X-ray, etc.)	Is being determined	Is being determined
<b>Machine Engineering Industry</b>			<b>58,0</b>
58.	Attract a strategic partner for the OJSC "Tashkent Tractor Plant" to manufacture new generation tractors	6,0 thousand tractors	50,0

№	Initiators and Projects	Capacity / Output	Estimated Cost of the Project*
59.	Study a possibility to establish manufacturing of road-building, loading-unloading equipment and machinery for utilities services at the premises of the OJSC " Tashkent Tractor Plant "	Is being determined	Is being determined
60.	Establishing production of auto gas-tanks equipment for liquid gas	30 thousand units	5,0
61.	Establishing production of textile (knitting) equipment	50 pieces of knitting equipment	2,0
62.	Establishing production of overlock machines	6 thousand units	1,0
63.	Establishing production of electrical equipment (drills, grinders, impact drivers, etc.)	Is being determined	Is being determined
64.	Establishing production of manual equipment for construction and repair work, gardening, etc.	Is being determined	Is being determined
<b>Light Industry</b>			<b>301,9</b>
65.	Establishing a textile complex for fabric production at the OJSC "Bobur" located in the Andijan Region	Is being determined	80,0
66.	Establishing a textile complex based at the not completed facility located in the Djondor District of the Bukhara Region	Is being determined	65,5
67.	Establishing a textile complex based at the not completed facility located in the Shafirkan District of the Bukhara	Is being determined	66,5
68.	Establishing a textile complex for production of jeans fabric and garments	Is being determined	25,0
69.	Establishing a textile complex for production of mixed/blend fabric and garments	Is being determined	26,5
70.	Establishing production of knitted products	Is being determined	1,0
71.	Establishing production of women's underwear	200,000 pieces	2,4
72.	Establishing production complex of silk products in the Kashkadarya Region	Is being determined	35,0
73.	Establishing production of domestic china products	Is being determined	Is being determined

№	Initiators and Projects	Capacity / Output	Estimated Cost of the Project*
<b><i>Production of Construction Materials</i></b>			<b><i>27,0</i></b>
74.	Establishing production of plexoglass	Is being determined	Is being determined
75.	Establishing production of sanitary ceramics	200,000 units	20,0
76.	Establishing production good made from natural stone (marble)	Is being determined	5,0
77.	Establishing production goods from wood-plastic composites (finishing materials, profiles for windows and doors, rails, furniture elements)	Is being determined	2,0
78.	Establishing of production of insulating materials made of wollastonite	Is being determined	Is being determined
79.	Establishing production of different types of locks (door-lock, padlocks, etc.)	Import in 2013 - 2,7 million USD	Is being determined
80.	Establishing production of various types of glassware (glasses, wine glasses, etc.)	Is being determined	Is being determined
<b><i>Food Industry</i></b>			<b><i>43,9</i></b>
81.	Establishing production of confectionery products	10,000 tonnes	10,0
82.	Establishing production of ketchup	5,000 tonnes	3,5
83.	Establishing production of infant food	8,000 tonnes	15,0
84.	Establishing production of foods with the use of lyophilized half-finished products from fruits and vegetables (breakfast cereals, soups, noodles)	1,000 tonnes	4,5
85.	Establishing production deep processing of fruits (puree, jams, fillings for confectionary industry)	8,000 tonnes	2,2
86.	Establishing production of dry concentrated broths and food flavourings	800 tonnes	4,5
87.	Establishing production of packaging (plastic, paper, etc.) for food industry	2,000 tonnes	2,0
88.	Organization of modern fruits and vegetables production with product packaging	Is being determined	2,2
<b><i>Pharmaceutical industry</i></b>			<b><i>188,3</i></b>
89.	Establishing production of fluid solutions and blood substitutes	25,0 million млн. bottles	30,0

<b>№</b>	<b>Initiators and Projects</b>	<b>Capacity / Output</b>	<b>Estimated Cost of the Project*</b>
<b>90.</b>	Establishing production of the substances and drugs (antibiotics of cephalosporin group)	300 tonnes of substance	20,0
<b>91.</b>	Establishing production of anabolic drugs	900 million units	7,0
<b>92.</b>	Establishing production of antitumor drugs and TB drugs	65 million units	20,6
<b>93.</b>	Establishing production of finished pharmaceutical products, including medicines for cardiovascular diseases	5 million packs	7,0
<b>94.</b>	Establishing production of vaccines for various diseases (influenza, rubella, hepatitis B, etc)	Is being determined	Is being determined
<b>95.</b>	Establishing production of medicines for ophthalmologic diseases	4500 thousand units	25,0
<b>96.</b>	Establishing production of anticoagulant	2400 thousand doses	18,0
<b>97.</b>	Establishing production of medicines for gynaecological diseases	4500 thousand units	17,0
<b>98.</b>	Establishing production of medicines for children (syrups)	Is being determined	5,0
<b>99.</b>	Establishing production of disposable medical instruments	11 million units (catheters, diagnostic tests for, stands, gynaecological instruments, scarifiers, tweezers, clamps, etc.)	1,5
<b>100.</b>	Establishing production of cancer drugs	1 million pieces	28,00
<b>101.</b>	Establishing production of iron supplements	Is being determined	Is being determined
<b>102.</b>	Establishing production of bottles from glass tube for dry antibiotics	100 million pieces	Is being determined
<b>103.</b>	Establishing production of tubes for medicamental ointments	20,0 million pieces	Is being determined
<b>104.</b>	Organization of drug crop cultivation and establish production of substances (vegetable oil, extracts)	100 tonnes of substance	3,0
<b>105.</b>	Establishing production of pharmaceutical substances (starch, glucose, fructose)	Is being determined	5,0
<b>106.</b>	Establishing production of disposable medical gloves	Is being determined	1,2
